

**Student # Name****40163582 Mohammod Suhel Firdus****40157109 Vivekananda Reddy Gottam****40184906 Saswati Chowdhury****40156971 Milesesh Kotadia****Dataset:** <https://www.kaggle.com/anoopkumarraut/most-popular-superhero-tv-shows>**Base Measures:**

**Time(T)** : We are sourcing the datasource from Kaggle which is relatively small and requires less than a minute to download the same to the local file system. We are taking this variable as **T1**

**No of Distinct Data Element(Ndde)** : 2694

**Length of Big Data(Lbd)** : Lbd :750

**No of Dataset in multi Dataset (Nds)=1**

**Derived Measures:**

**Mvel** : Velocity

**Mvol** : Volume

**Mvar** : Variety

Conclusion: The hierarchy of big data quality indicators is similar for our project.
